# Plant species regulated for *Phytophthora ramorum* (these are regulated in whole or in part – see <a href="www.aphis.usda.gov/ppq/ispm/sod">www.aphis.usda.gov/ppq/ispm/sod</a>)

Scientific Name (22)	Common Name
Acer macrophyllum	Bigleaf maple
Aesculus californica	California buckeye
Arbutus menziesii	Madrone
Arctostaphylos manzanita	Manzanita
Camellia japonica	Camellia
Heteromeles arbutifolia	Toyon
Lithocarpus densiflorus	Tanoak
Lonicera hispidula	California honeysuckle
Pieris formosa	Andromeda
Pseudotsuga menziesii var. menziesii	Douglas-fir
Quercus agrifolia	Coast live oak
Quercus chrysolepis	Canyon live oak
Quercus kelloggii	California black oak
Quercus parvulav. shrevei	Shreve oak
Rhamnus californica	California coffeeberry
Rhododendron spp	Rhododendron
Sequoia sempervirens	Coast redwood
Trientalis latifolia	Western starflower
Umbellularia californica	California bay laurel, pepperwood, Oregon myrtle
Vaccinium ovatum	Huckleberry
Viburnum x bodnantense	Bodnant viburnum
Viburnum tinus	Laurustinus

## Plant species associated with *P. ramorum*, not currently regulated

Scientific Name (16)	Common Name, Date & Source of Report
Abies grandis	Grand fir – June 03 (1)
Arbutus unedo	Strawberry tree – Dec 02 (7)
Camellia sasanqua	Camellia – June 03 (1)
Corylus cornuta	California hazelnut, – Dec 02 (5)
Kalmia latifolia	Mountain laurel – Fall 02 (3)
Rhamnus purshiana	Cascara – Dec o2 (4)
Pieris formosa x japonica	Forest Flame Andromeda – June 03 (2)
Pieris floribunda x japonica	Brouwer's Beauty Andromeda – June 03 (2)
Pieris japonica	Variegata and Flaming Silver Andromeda – June 03 (2)
Pittosporum undulatum	Victorian box – Dec 02 (6)
Rubus spectabilis	Salmonberry – Dec 02 (4)
Syringa sp.	Lilac – 2003 (3)

Taxus baccata	European yew (3)
Toxicodendron diversiloba	Poison oak – Dec 02 (4)
Vaccinium vitis-idaea	Lingonberry – Poland, 2002 (reported by 3)
Viburnum plicatum var. tomentosum	Mariesii - Doublefile Viburnum – June 03 (2)

### Last revised 17 July 2003

#### **Rationale for lists:**

## Plant species regulated for *Phytophthora ramorum*:

Regulated plants are those adapted from other regulated lists or were added upon completion, documentation and review of traditional Koch's postulates. Some are regulated in part (such as redwood and Douglas fir), others are regulated in their entirety (such as tanoak and western star flower). Details on regulated articles can be found via links to "Phytophthora ramorum 7 CFR 301.92" and "Recent Modifications to Phytophthora ramorum Regulations" at:

## www.aphis.usda.gov/ppq/ispm/sod

## Plant species associated with *P. ramorum*, not currently regulated:

Associated plants are those found naturally infected from which *P. ramorum* has been cultured and/or detected using PCR (Polymerase Chain Reaction). For each of these, traditional Koch's postulates have not yet been completed or documented and reviewed. Though not regulated and not requiring certification under *P. ramorum* regulations, these plants will be inspected in nurseries and Christmas tree plantations and, if symptoms observed, held from sale pending testing.

This list is constantly being updated. The most current version is posted at: <a href="https://www.aphis.usda.gov/ppq/ispm/sod">www.aphis.usda.gov/ppq/ispm/sod</a>
